Help

Exit

Typical flow of an event:

1. Create the show
2. Create the events
3. Enter teams
4. Create a draw (run order)
5. Run the event
6. Create each go round for that event
7. Create an average of that event
8. Apply points and earnings to the event
9. Apply points and earnings to each invoice
10. Payout each contestant

All Programs Database: C:\Users\Public\Documents\Lazy J USTPA December 2011.mdb Output Path: C:\Program Files\Arena Manager

Creating a show and adding classes to that show.

Click "Create Show"

Give the show a name, date and location

Click "Create New Event"

Name: Name the event such as Open Pen. [You can have a list of events available in the drop down by adding them on the Config/Events tab. A name can also just be typed in.](#)

Date of event

Std Format: Select penning for both penning and sorting events

Custom Format: Select Pen

Stock Req: Select None. If running an event where a horse name is used such as an AQHA event, use Contestant Horse. Class

Cap: Put in the class cap. Put a 5 for the #5 class.

of Entries Cap: Maximum number of entries a contestant can have in that event. Put 4 for a 4 ride limit.

Indiv Cap: If your #5 class has a cap of a #2 rated rider, type in 2. By doing this, a #3 cannot ride with (2) #1 rated riders.

of Cont: Type in the number of contestants on a team. Type in 3 for team penning, a 2 for a ranch sorting.

Rake After: If you are changing herds after 10 runs, type in 10.

Entry Fee: Type in the entry fee for the Team (include all sanction fees if applicable)

Class: Select the class the points will be allocated. [A list of classes available in the drop down by adding them on the Config/Events tab.](#)

Sanctioned: Select which association in which to use the ratings. [The sanctioning association can be made available in the drop down by adding them on the Config/Events tab.](#)

Positions: Not used

Arena Management Software (AMS) User Manual – version 4.1.98

Team Penning/Ranch Sorting

<http://www.arenamanagementsoftware.com>

Handicaps:

If handicaps are used, click add for every team rating possible in the class. Type in the ratings for every rating and the handicap for that team. Click the Handicaps button. When creating each go round, the user has to come back to the setup screen to apply the handicaps for each round.

Show Fees:

Click the “Add” button for any show fees such as Memberships, Stalls, RV hookups, etc. Select the appropriate fee in the drop-down and type in the amount next to each fee. [You can have a list of fees available in the drop down by adding them on the Config/Events tab. A fee can also be added by typing the fee in.](#)

If all of the shows have the same format, the “Duplicate Show” button can be used for the next show. The show fees for the subsequent shows will still need to be set.

The Judging tab is not used for team penning or ranch sorting.

[Back to Index](#)

The screenshot displays the 'Arena Manager for United States Team Penning Association' software. The interface is divided into several sections:

- Menu:** A vertical sidebar on the left with buttons for Setup, Entry, Draws, Run Event, Results, Reports, Members, Facility, Config, Association, and Help/Exit.
- Show Setup:** The main area at the top, containing fields for Show Name, Date, Location, and Starting Back #. It also has buttons for Create Show, Duplicate Show, and Delete Show.
- Show Fees:** A table on the right showing various fees and their amounts.

Name	Amount
1 USTPA Single Membe	\$65.00
2 USTPA Family Membe	\$150.00
3 USTPA Youth Membe	\$35.00
4 USTPA Day Pass	\$0.00
5 Stall	\$25.00
6 Stall 2nd Nite	\$20.00
7 RV	\$25.00
- Event Setup:** A section below Show Setup with tabs for General, Gos, Rot & Perf, Judging, P & P, Sponsor, and Duplicate. The 'P & P' tab is active, showing a table for placing points and earnings.

Place	Points	Earnings
1	4.00	\$0.00
2	3.00	\$0.00
3	2.00	\$0.00
4	1.00	\$0.00
- Results Table:** A table on the left side of the Event Setup section showing event details.

Name	Date	# of Entries
Open HC Pen	11/19/2011	16
Open HC Pen 2nd Round	11/19/2011	7
Open HC Pen Short Round	11/19/2011	5
Open HC Pen Average	11/22/2011	7
#13 Pen	11/19/2011	18
#13 Pen 2nd Round	11/22/2011	7
#13 Pen Short Round	11/22/2011	3
#13 Pen Average	11/22/2011	7
#11 Pen	11/19/2011	20
#11 Pen 2nd Round	11/19/2011	10
#11 Pen Short Round	11/19/2011	5
#11 Pen Average	11/22/2011	10
#9 Pen	11/19/2011	20
#9 Pen 2nd Round	11/19/2011	8
#9 Pen Short Round	11/19/2011	7
#9 Pen Average	11/22/2011	8
#7 Pen	11/19/2011	18
#7 Pen 2nd Round	11/19/2011	8
#7 Pen Short Round	11/19/2011	3
#7 Pen Average	11/22/2011	8
#5 Pen	11/19/2011	18
#5 Pen 2nd Round	11/19/2011	6

At the bottom, there are buttons for 'Create New Event', 'Remove', and a status bar showing the database path and output path.

Payouts and points can be applied in two different areas of the program. This is one, that is used for Rodeo, and larger events where there is a predetermined payoff.

The other place will be covered later.

Click "Add Row" for every place paid or points will be applied. In the example above, the first round (Open HC Pen) will be receiving 4 points a person for placing in first place in the first round. If fast time money had been paid, the amount paid to the team will be typed in the earnings field.

Each club has different rules on points and payout distributed. If the club only pays in the average, make sure your average event in selected on the left before typing in the money amount.

The next page has an illustration of points and payouts in the average only.

The duplicate tab can be used to duplicate a class. Set the parameters and give the duplicate class a name before clicking “Make Event Copy”.

This can sometimes be used when wanting to preserve original entries before making any major changes. This function is used very seldom.

This screen is for entering teams.

Select the class where the team is to be entered. Select each team member from the drop down list and click add entry.

If a team member needs to substitute by another contestant, go to the list of teams at the bottom, select the team. This will bring that team to the top. Make the contestant change and select "update". Do not click add, or it will add that team to the bottom and not make the substitution. Events with draws will be explained in the next illustration.

Position: 1 # 15

Database: C:\Users\Public\Documents\Lazy J USTPA December 2011.mdb Output Path: C:\Program Files\Arena Manager

When entering teams into a draw, select only one name from the above drop-down and click enter. To find out if you have the right number for a draw to come out even, click the "View Position Count" button. Notice in this example that the position count is 15. This will give us 5 complete teams for this event. For a two man ranch sorting, you would want that to be an even number.

Once you have the correct number in the position count for a draw, click the "Draw Pot" button.

The next page will explain how to do a draw pot.

Save as new Event: Event Name

Accept Cancel

Database: C:\Users\Public\Documents\Lazy J USTPA December 2011.mdb Output Path: C:\Program Files\Arena Manager

After clicking the draw pot button on the initial entry page, a box will appear like the one above. In the middle of the page near the top, select the “by entry” button, then the “Calculate” button to the right hand side of the page, scroll down to make sure all entry slots are filled, and then click the “Accept” button in the lower left.

After this step, the program will make an automatic backup of the class before draw contestants were teamed together. It’s a good idea to zero out the fees on the setup screen for the backup or each contestant will be charge twice for the class. The backup is automatically made if any problems come up after completed. For example, if a person has been left out of the draw. At that time, the user can go to the backup, add that person to the draw, and complete the steps once again. I usually delete the backup copy after that class is through the first round.

The next illustration shows the backup copy on the setup screen.

The alpha tab on the entry screen has many different uses. It can be used to determine how many rides an individual currently has entered, who that person is riding with, and can be used to determine if a certain rated rider has any open rides.

In the example above, Bryan Blackman has two rides in the Open HC Pen. He is riding with London Gibbs and Tony Gibbs on one team and London Gibbs and Joel Lesh on the second team. He is a #4 rated rider. If this class has a four ride limit, it tells the user that he has two rides open.

This page is for fees and payments. This page shows "Bill Abney" with two rides in the Open HC Pen at \$63.50 each for a total of \$127. Enter the quantity for any fees such as memberships or stalls. To make a payment, select the payment type (check, cash, or credit), enter amount, make any notations in the "Note" field such as check #2145 and click the "add" button. Click the "Print Receipt" button for a printout for the contestant.

If any earnings are applied, they will be in the notes field. This will be covered later.

If any mistakes are made during the checkout process, just double click the entry below the "add" button will remove that entry.

"Apply earnings" button – Click this button before checking out each contestant to ensure all earnings have been applied to their invoice.

Buttons: Calc, Print Balance Detail, Print Balance Report, Print All Receipts, Apply Earnings to All, Remove Applied Earnings

Summary: Total # of Contestants entered: 34, Total # of Contestants with balances: 10, Total Balance due: \$3,533.00

Database: C:\Users\Public\Documents\Lazy J USTPA November 2011 FOR WEB.mdb | Output Path: C:\Program Files\Arena Manager

This is the balance detail screen. After clicking the “Calc” button, it will tell the user how much the contestant is owed, or owes. Any amount in red denotes an amount owed by the contestant, and any amount in yellow denotes an amount owed to the contestant. Print Balance Detail – prints a balance detail report

Print Balance Report – prints a balance report

Apply Earnings to All- applies earnings set from the setup screen. More information for this button will come in a later chapter. Remove

Applied Earnings- removes any applied earnings

Important: Click the “Apply Earnings to All” button after an average has been created for every event. Earnings will not appear on a contestants invoice at the end of the day if not completed.

The screenshot shows the 'Arena Manager for United States Team Penning Association' window. The 'Show Entry' screen has four tabs: 'Entries', 'Fees & Payments', 'Entry Reports' (selected), and 'Entry Detail'. The 'Entry Reports' tab displays a table with columns: Entry ID, Draw #, Name, Rating, Position, CO Event, and CO Entry ID. The table lists 34 entries, with some rows highlighted in yellow. A 'Print' button is located at the top right of the table area. The status bar at the bottom shows the database path and output path.

This is the "Draws" screen. This is used to draw for position in the class once all entries have been entered. I will briefly explain the buttons on the right side of the page and their functions, then describe step-by-step instructions on drawing for run position for the event.

Vet, Turn Out, OK, Remove are never used for team penning or ranch sorting.

Move Up, Move Down – these buttons can be used to move a team up or down by first clicking on a team in the run order and then clicking either button. I have used these before if I know a class is ready to start and a contestant has just pulled into the facility and have yet to saddle their horse. This can allow a class to start without having to wait for them to saddle.

Swap- The user can enter a team number in the "from" field and another in the "to" field and then click "Swap". This will swap the two teams in the run order.

Go- The user can enter a team number in the "go to" field and click the "Go" button and it will take you to that team.

Print "Run Order" – prints a run order normally used to write down times for the backup timer in the announcer booth.

Print "Run Label Summary" and "Run Label Detail" are seldom used.

The user can draw for a run order from this screen, or by using the Sep/Rot tab. Using the Sep/Rot tab will be described later.

If a random order desired, select the "random" radio button near the bottom of the screen and click "Go".

If the user wants a run order by the way the teams were entered on the entry screen, select the "as entered" radio button and click "Go".

If the user wants to redo a draw, select the "Unassign" radio button, click "Go" and redo the draw.

The "reverse" and the "align all draw to Rot draws" are seldom used.

Sets tab

This function is used to determine how many times a contestant is riding in a specific herd or how far apart their rides.

The user can input "10" in the set size field, click on "Check Set Conflicts" to determine if a contestants rides are within 10 rides of one another. Any number can be used. The user can also move their rides further apart by inputting a number and clicking "Resolve Set Conflicts". The "Check Set Conflicts" button needs to be checked again to see if the change was made. Depending on the size of the class and how many rides the contestant has determines how far apart the rides can be made.

Draws – Sep/Rot tab

This is the most common method in creating a draw (run order) and will spread out the contestants the best.

By clicking the Sep/Rot tab at the bottom of the “Draw” screen will bring the Rotation/Separation pop-up on the screen. The first step is to know how many teams in the class. In this example, there are 16. If there are 16 teams, and each person has 4 rides or less, then the rides can be no more than 4 rides apart. I will then put 4 next to the minimum separation field. The next step is to select the “Assign all new team #'s” radio button. This will make the first team out team #1, the second team out team #2 and so on all throughout the class and all rounds. Then click the “Separate” button in the center of the pop-up. Keep clicking that button until the teams on the right quit moving positions. If they keep moving, the minimum separation may need to be lowered to 3. Once you find the “magic” separation number and the teams quit moving positions, click the “Accept” button.

After this step has been completed, You will put that “magic” number in the set size field on the “Sets” tab to double check if the contestant is that many teams apart in the run order. You will then click “Set Set Conflicts”. The results will be displayed like the next illustration.

Draws – Time Sheets & Draw Slips tab

This tab can be used to generate two other types of sheets for a backup timer.

The Time Sheets button will create a list with all of the teams and a user defined number of go-rounds.

The Generate Slips button creates a list of teams with 3 teams per page that the user can cut slips for the backup timer. It will have a place for cattle #'s, times for each go, and a combined time.

This is the "Run Event" screen. This is where the announcer runs the event, puts in times, creates the go rounds, and informs the audience of show results.

In the illustration above, the event has already been run but the information will be explained. The event is the #13 Pen and the announcer is on team number 38. In the yellow fields to the right side labeled Time, # Penned, Penalty is where the run information is input. If there is a FarmTek timer inputting times, the only information needed is the # of cattle penned. Penalty is never used in team penning or ranch sorting. Once that information has been captured, the announcer will either click the "N/T" or the "OK" button then next up. Be careful to click the correct button when clicking "N/T" or "OK", entering it incorrectly could affect the outcome when creating the next rounds when the round is complete.

Cutoff Times:

In the yellow field next to the label "Cutoff" there is a 33. When a time has been entered, the program will inform the announcer of the 33rd fastest time and the number penned. This value can be changed according to your local club rules. The cutoff time for 33 teams at this point is currently 45.34 on 3 head.

In the yellow field to the right of the teams listed, will be go info. This will tell the announcer where that team stands in that go round. Team #38 is the 16th fastest time with a time of 35.08 on 3 head penned.

Once all teams in that round have been run, it is time to create the next round. Click the "Set Go's" button in the lower right. The next page will describe that process.

This screen will pop-up after clicking the "Set Go" button on the "Run Event" screen. This is where you will set the parameters for the next go round.

In this exercise, the 2nd round of the #13 Pen class will be created.

1. Check the box next to the #13 Pen class on the left side.
2. Go down and select, "Only entries with valid Time or Score (No N/T's or T/O's)" and "Include Team # in grouping".
3. Click "Load Contestants" button in the lower left.
4. Next go to the upper right and input the number coming back to the 2nd round in the box below the "Top n" and "Top n %".
5. **Important.** Click the radio button "Top n". In this example, we are bringing back 33 teams.
6. Click the "Load" button. This will load the selected teams from the top of the screen to the bottom of the screen.
7. **Important.** In the middle of the screen, type in that go round a name, it has been named "#13 Pen 2nd Round".
8. The next step is to select which type of order you want to run the next go round. The "Reverse Draw Order" has been selected.
9. Once all of those steps are complete, click the "Create Go" button in to finalize the creation of the 2nd go round. There will be an info screen appear that says that round has been created, click "ok".
10. Click the "Run Event" button on the left, selected the #13 Pen 2nd Round and continue on with that round until all teams are completed. Each go round after that will be created in the same fashion. The only exception when creating the parameters for a 3rd round and so on is to select both the first round and the 2nd round in the "create go's" screen.
11. At this time, a report can be ran for the 2nd round including first go round times using the "Draw-Draw reports" tab. This report can be posted for the 2nd round.

This screen shows the "Ranking" tab of the "Run Event" screen.

The announcer can quickly click on this tab to inform the audience of the fastest time, where a specific team is currently in that round, how far a specific team is out of first place.

In the final round of the class, the final results can be announced by clicking on that tab, as the program will combine times in all go's and display that information.

Results/Results tab

This screen is able to produce a user defined results print out. The parameters for the report can be set by the available fields, moving them over to the selected field by using the arrow between. Once you have selected the desired parameters, click "Calculate". By clicking on the "Excel" button, these reports can be further enhanced by the user.

Another enhanced report can be created by checking the "Go Report" and "Use On gos". This report will create a report that will display the average time including each go round.

Results/Payouts & Points tab

This screen is used to apply payouts & points. Payouts & Points can be applied two different ways from this screen. An average event has to be created prior to executing either way. [Creating an averaged event.](#)

1. The earnings & points can be typed directly in to this page for each member. The user can either type in the team earnings and the program will automatically divide the amount by 3 or the user can type in individual earnings for each contestant. The points have to be typed in for each contestant. If this method is used, do not click the "Apply Points & Payouts" button at the bottom of the screen.
2. The other way to apply payouts & points is by clicking the "Apply Points & Payouts" button at the bottom of the screen. The payouts and points that were input on the ["Setup/P&P tab"](#) will be applied.

☐ Only entries with valid Time or Score in each event

Calculate Averaged Entries

Create Averaged Event

Database: C:\Users\Public\Documents\Backup on 12-5-2011 21-21-45 PM Lazy J USTPA November 2011 FOR WEB.mdb Output Path: C:\Program Files\Arena Manager

Results/Average tab

This screen allows the user to create an average of the event. Average = combined times and cattle penned of all go rounds

In this exercise, the Average of the Open HC Pen class will be created.

1. Check all go rounds of the Open Pen class on the left side.
2. Go down and select, "Only entries with valid Time or Score (No N/T's or T/O's) and "Include Team # in grouping".
3. Click "Calculate Averaged Entries" button in the lower left.
4. Next go to the upper right and input the number of average teams you want in this report. Normal is 10. In this example there were only 7 teams that had a time.
5. Important. Click the radio button "Top n". In this example, we are averaging 7 teams.
6. Click the "Load" button. This will load the selected teams from the top of the screen to the bottom of the screen.
7. Important. In the middle of the screen, type in the name of the averaged event, it has been named "Open HC Pen Average" in this example.
8. The next step is to scroll down and click next to the events. Once you click, it will say "Ave here>>>".
9. Once all of those steps are complete, click the "Create Averaged Event" button in to finalize the creation of the averaged event. 2nd go round. There will be an info screen appear that says that average has been created, click "ok".
10. You can now go in setup earnings and points by either going to the average event in the "Setup/P&P tab", or to the "Results/Payouts & Points tab". I prefer using the "Setup/P&P" tab.

Team Penning/Ranch Sorting

<http://www.arenamanagementsoftware.com>

The screenshot displays the 'Arena Manager for United States Team Penning Association' window. The title bar includes the text 'Kendrick & Craft Inc. Ver. 4.1.98'. The interface is divided into a left-hand menu and a main content area. The menu contains the following items: 'Menu', 'Setup (Setup your Show(s))', 'Entry (Enter Contestants here)', 'Draws (Create your Draws)', 'Run Event', 'Results (See your Results)', 'Reports (View and Print Reports)', 'Members (Manage your Members)', 'Facility (Edit your Barns/Stalls)', 'Config (Change your settings)', 'Association (Manage your Assoc.)', 'Help', and 'Exit'. The main content area is titled 'Results' and features three tabs: 'Results', 'Average', and 'Round Robin'. The 'Round Robin' tab is currently selected. Within this tab, there are four dropdown menus: 'Shows' (set to 'Joel Lesh November 2011'), 'Events' (set to '#7 Pen 2nd Round'), 'Positions' (set to 'fpCombo3'), and 'New Event Name' (empty). A 'Create' button is positioned below these dropdowns. At the bottom of the window, a status bar shows the database path 'C:\Users\Public\Documents\Backup on 12-5-2011 21-21-45 PM Lazy J USTPA November 2011 FOR WEB.mdb' and the output path 'C:\Program Files\Arena Manager'.

Results/Round Robin tab

This screen is never used in team penning or ranch sorting.

Potts	Kris	45	\$5,332.00	2

Reports/Standings tab

This screen is from the Reports/Standings tab and can produce many useful reports.

Filter Options – set the parameters for your report

1. Association – Most Arena Manger programs for team penning associations will only have one drop down in this location. Some associations will offer both team penning and ranch sorting, therefore having separate ratings for team penning and ranch sorting. Choose the appropriate association for the report you desire.
2. Year-Choose the year of the show
3. Shows-The user can choose to identify points or earnings from all shows combined or a particular show.
4. Class- The user can choose to identify points or earnings from all classes combined or a particular class.
5. Rating- The user can choose to identify points or earnings for all ratings or a particular rating.
6. Division-If the program is set, this is another means to identify contestants. Example: Pro, Am, Novice
7. Position-Not an option normally used
8. State-The user can choose to identify points or earnings for a contestant from a particular state.
9. Team-Not an option normally used

Sort Options – sort the report by one of the following 4 options

1. Points
2. Earnings
3. All Around Points
4. Name

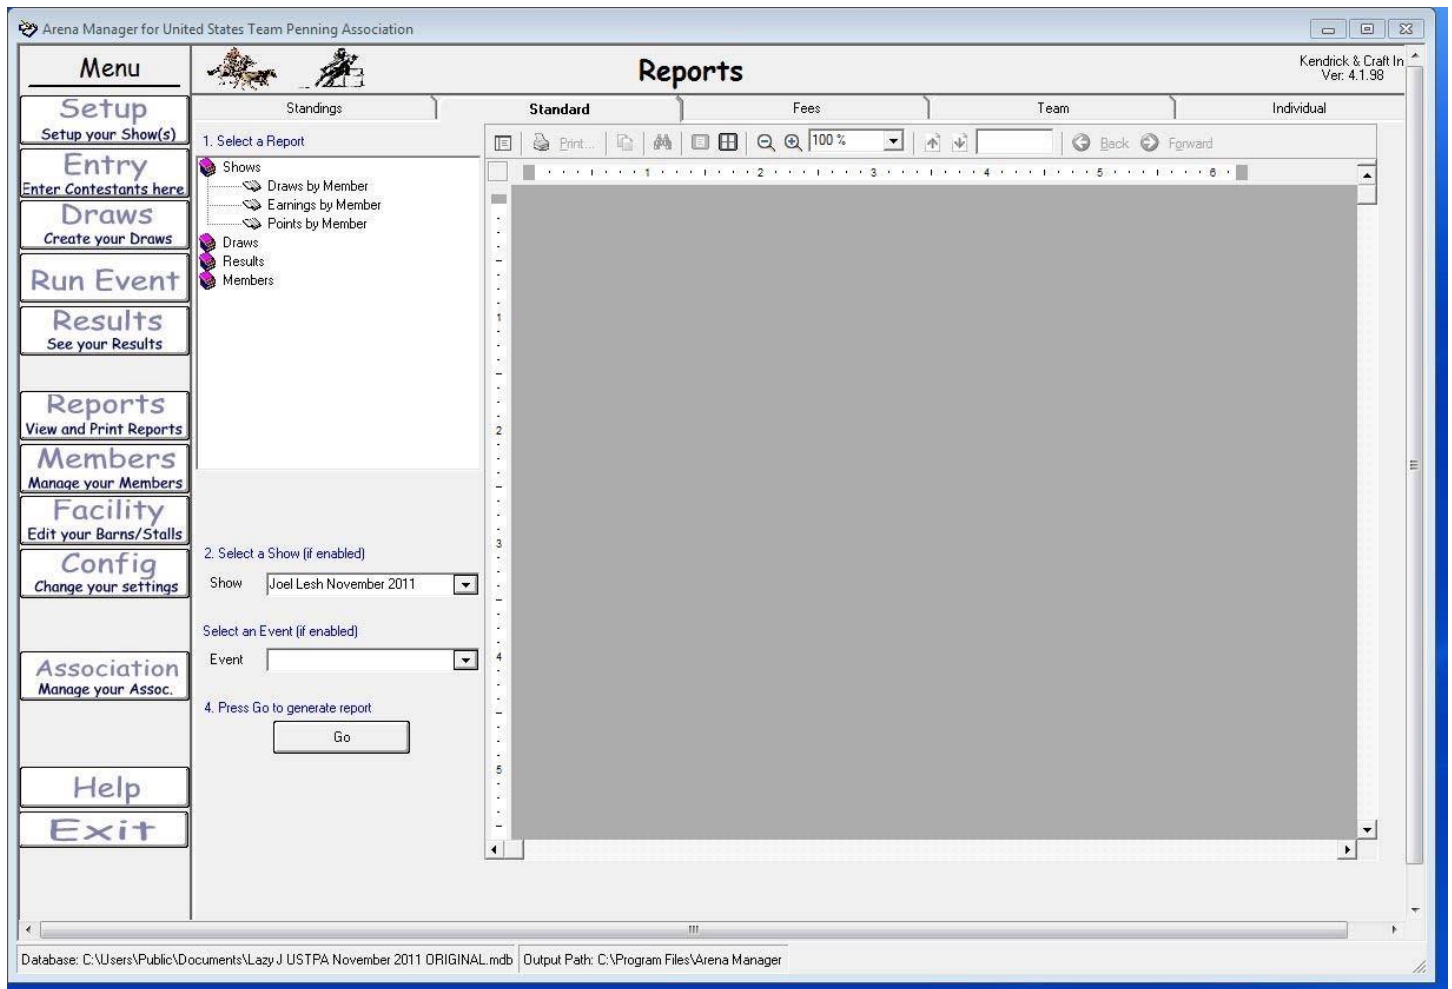

Custom Header – The user can generate the report with a custom name.

Click the “Calculate” button to generate the report.

Reports/Standard tab

Reports/Team tab

Reports/Individual tab

Team penning or ranch sorting associations seldom use reports from these 3 tabs. [Back](#)

[to Index](#)

The screenshot shows the 'Arena Manager for United States Team Penning Association' window. The 'Reports' tab is active, and the 'Fees' sub-tab is selected. The 'Show' dropdown is set to 'Joel Lesh November 2011'. The 'Fees' list on the left includes 'USTPA Single Membership' (checked), 'USTPA Family Membership', 'USTPA Youth Membership', 'USTPA Day Pass', 'Stall', 'Stall 2nd Nite', 'RV', and 'ADMA'. The 'Fee Report' button is visible. The main table displays the following data:

USTPA Single Membership				
Name	Amount	Quantity	Total	Total
Belter, Mike	\$65.00	1	\$65.00	\$65.00
Bolin, Pat	\$65.00	1	\$65.00	\$65.00
Brooks, Terry	\$65.00	1	\$65.00	\$65.00
Heidelberg, Hoppy	\$65.00	1	\$65.00	\$65.00
Istre, Joey	\$65.00	1	\$65.00	\$65.00
Kapp, Sara	\$65.00	1	\$65.00	\$65.00
Krouse, Cheryl	\$65.00	1	\$65.00	\$65.00
Lawless, Bill	\$65.00	1	\$65.00	\$65.00
Lawless, Suzie	\$65.00	1	\$65.00	\$65.00
Lesh, Joel	\$65.00	1	\$65.00	\$65.00
Lesh, Jordan	\$65.00	1	\$65.00	\$65.00
Miller, John	\$65.00	1	\$65.00	\$65.00
Rice, Carther	\$65.00	1	\$65.00	\$65.00
Richard, Billy	\$65.00	1	\$65.00	\$65.00
Richard, Joyce	\$65.00	1	\$65.00	\$65.00
Victorian, Paul	\$65.00	1	\$65.00	\$65.00
Walsh, Megan	\$65.00	1	\$65.00	\$65.00
			\$1,105.00	\$1,105.00

The status bar at the bottom indicates the database is 'C:\Users\Public\Documents\Lazy J USTPA November 2011 ORIGINAL.mdb' and the output path is 'C:\Program Files\Arena Manager'.

Reports/Fees tab

This tab will create reports for the fees set on the "Setup" screen. Select the fee; click the "Fee Report" button.

The report in the illustration above shows who purchased a USTPA Single Membership, and the total amount collected. [Back](#)

Members/Member Detail/Ratings & Divisions tab

The ratings & divisions tab will display the members rating for each association.

If a new member is added, a rating for that member will need to be entered.

Steps to add a new member rating

1. Click the "Add Row" button.
2. Select the association from the drop-down list.
3. Member # can be entered.
4. Position – not used for team penning or ranch sorting
5. Rating – Enter the rating #
6. Division - not used for team penning or ranch sorting [Back to Index](#)

Installing the Prolific USB to Serial adapter for the automatic timer input from the FarmTek Timer system

1. Install the software – DO NOT PLUG IN THE ADAPTER BEFORE INSTALLING THE SOFTWARE
2. Plug in the Prolific USB to Serial adapter – Windows will automatically install the device
3. To identify which port windows installed the adapter, Click “Windows Start” button
4. Go to Control Panel
5. Go to Hardware and Sound
6. Go to Devices and Printers
7. Go to Device Manager
8. Go to Ports
9. Look at the port number assigned to the Prolific USB to serial adapter
10. Go to the “Config/System” tab
11. Under Timer settings/Port choose that port number, Baud = 1200, Parity = None, Word = 8, Stop Bits = 1

If you have problems with the current Farm Tek USB to Serial adapter it is probably do to some bad chips (counterfeit prolific chips) that were introduced during manufacturing in Asia. Your choices are 1. purchase a new USB to Serial adapter from a source other than Farm Tek, or click download the FarmTek Arena Manager instruction manual. [Arena Management FarmTek Timers.pdf](#) and the best driver we have been able to come up with to deal with the Prolific issues.

Driver Link [Drivers for Prolific adapter](#)

To change the assigned port

1. Right click the Prolific USB to Serial adapter
2. Click properties
3. Click port settings
4. Click Advanced
5. Open the drop down for COM Port Number
6. Select Com 1, 2, 3, or 4
7. Click out by clicking all of the windows “OK” prompts

5. Home Association: The default association
6. Sanctioning Association: If you are running a show with ratings from another association, enter that association here.
7. Ratings Positions: Not used in team penning or ranch sorting [Back to Index](#)

Team Penning/Ranch Sorting

<http://www.arenamanagementsoftware.com>

The screenshot shows the 'System Configuration' window for the 'United States Team Penning Association'. The 'General' tab is selected, showing settings for check printing. The 'Arena Name' is 'United States Team Penning Association'. The 'Check Format' section includes fields for 'Check Date', 'Name', 'Check Amount', 'Amount in words', 'Memo', 'Detail', and 'Address Block (Mail Address, City, State, Zip)'. The 'Horiz Pos in Inches' and 'Vert Pos in Inches' are set to 6.9, 0.8, 1.25, 1.1, 6.9, 1.05, 1.25, 1.61, 1.25, 2.4, 0.0, 0.0, and 0.0, 0.0 respectively. The 'Print Triplicate' checkbox is checked. The 'Check #2 Offset' is 3.0 and the 'Check #3 Offset' is 7.0. The 'Test Print' button is visible. The 'Output file directory' is set to 'C:\'. The 'Teams' table is empty. The 'Run Event Audit On' checkbox is checked and 'Mailing Address on Receipts' is unchecked. The status bar shows the database path as 'C:\Users\Public\Documents\Lazy J USTPA November 2011 ORIGINAL.mdb' and the output path as 'C:\Program Files\Arena Manager'.

System	Events	General	Registration	Import
Check Format	Horiz Pos in Inches	Vert Pos in Inches		
Check Date	6.9	0.8		
Name	1.25	1.1		
Check Amount	6.9	1.05		
Amount in words	1.25	1.61		
Memo	1.25	2.4		
Detail	0.0	0.0		
Address Block (Mail Address, City, State, Zip)	0.0	0.0		
Print Triplicate		<input checked="" type="checkbox"/>		
Check #2 Offset		3.0		
Check #3 Offset		7.0		
Test Print				

Team Name	Contact Name	Contact Phone

Config/General tab

This page is for setting up to print checks.

Recommended for newer Voucher checks use 3.66 and 7.12 for the Check 2 & 3 offsets
